APD SERIES

The Compressed Air is "Driving source." for the product !
Both discharging and sucking are available, depending on the requirement at working sites.

For Discharging only
APD Series

AIR

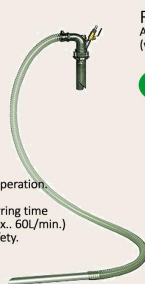

- The design for silent operation.
- To transfer fresh oil.
- To reduce the transferring time from the drum (approx. 60L/min.)
- Designs for double safety.

For Sucking only
APDQ Series

AIR

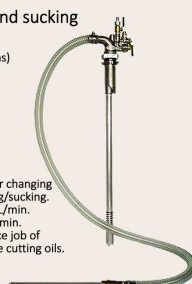

- The design for silent operation.
- To transfer fresh oil.
- To reduce the transferring time from the drum (approx. 60L/min.)
- Designs for double safety.

For both Discharging and sucking
APDX Series
(with one-touch lever to switch the functions)

AIR

- One touch switch works for changing the functions of discharging/sucking.
- Discharging Capacity: 100L/min.
- Sucking Capacity: 80L/min.
- To take care of maintenance job of machine tools and to change cutting oils.

STEEL WAGON

Made in Japan

Made of one single steel plate, the tray is seamless.
The shallow upper tray is for the organizer of small things. The middle one and the lower one are suitable for hand tools.

Assembly type X

Possible to increase a tray or change the combination.

• Max. load capacity: 80kg
• Equal load capacity: Shallow 20kg/tray Deep 30kg/tray
• Adjustment pitch: 50mm
• Number of trays: 3
• Pole diameter: 25.4mm • Weight: 8.4kg
• Caster: Universal 75mm×2
• Universal stopper (attached) 75mm×2
• Shallow×1 + Deep×2
• Material: Body: Steel
Caster bracket: Steel
Wheel: Synthetic rubber

KARTIO

Made in Japan

Light Resin Hand Truck w/Foldable Handle "KARTIO"

MPK-720-B
(Blue)

Carry easily

Foldable Handle save space

Light Strong
weight 7.9kg Max load 200kg
Light & Strong carrier by Rib Structure

MPK-720-BK (Black)

Earth Friendly
Recyclable resin
Powder coating Invalent
chromate treatment

Silent
Noise-reducing caster

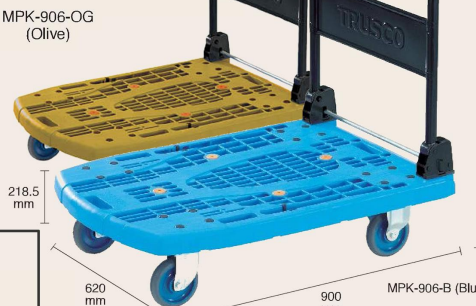

- Weight reduction achieved by the exposed rib structure.
- Non marking caster
- Finished product
- Caster : Universal wheels×2, Fixed wheels×2
- Caster diameter : 100mm
- Material
- Loading platform : 100% Recycled polypropylene (PP)
- Handle : Steel Handle surface treatment : Powder coating
- Caster : Elastomer resin plastic

KARTIO BIG

Resin Platform Truck Big Type

Equal load capacity 400kg

MPK-906-OG (Olive)

218.5 mm

620 mm

900 mm

MPK-906-B (Blue)

- Excellent truck as operability and quietness
- Finished product
- Caster : Universal wheels×2, Fixed wheels×2
- Caster diameter : 125mm
- Weight : 13.5kg
- Material
- Loading platform : 100% Recycled polypropylene (PP)
- Handle : Steel
- Handle surface treatment : Powder coating
- Caster metal part : Special steel Wheels : Nylon core+Rubber

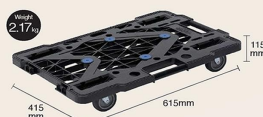

Resin Dollies "Route Van"

Loading platform has a robust mesh rib structure.
Superior in the durability in chemicals and solvents.

MPK-600J-BK (Black)

MPK-600J-BK (Black)

Equal load capacity 100kg

- 4 anti-slip rubbers on the platform.
- Non marking caster, 4 universal casters.
- Finished product
- Material
- Loading platform : Recycled polypropylene (PP)
- Caster Metals : Steel (trivalent chromium plating)
- Caster : Elastomer resin, nylon resin

Usage examples

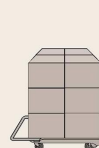

Weight reduction achieved by the exposed rib structure. In addition, reverberation from the floor surface is reduced, for more quiet running.

Light-Duty Resin Trolley w/Foldable Handle "KOMAWARI KUN"

Made in Japan

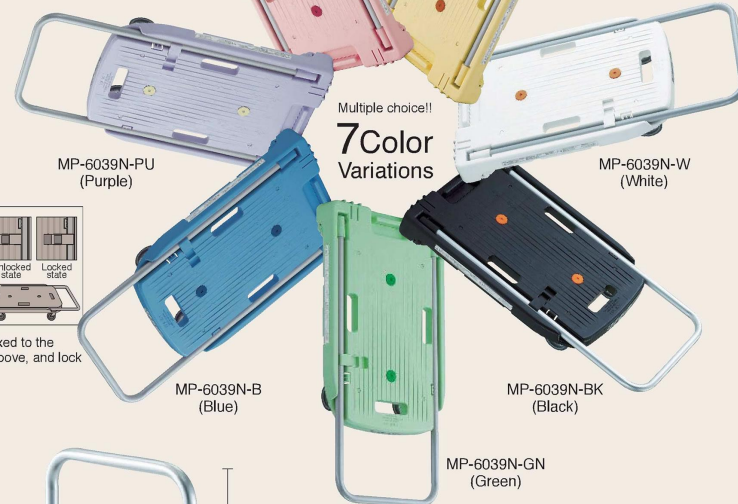

Can be used as a flat trolley

Can be stored neatly upright

MP-6039N-P (Pink)
